JAMES CAREY. I have had a heavy feeling in my head, lungs and stomach for six weeks. I was examined and informed that my heart and lungs were sound. I am alarmed about the condition.

DOCTOR.

The heaviness is more apt to be due to indigestion than to heart or lung disease. A feeling of heaviness in the chest region is not a symptom of heart or lung affections. Take a Ripans Tabule and eat oranges, figs or appies every morning.
